I.S. EN 13863-4:2012

Concrete pavements - Part 4: Test methods for the determination of wear resistance of concrete pavements to studded tyres

I.S. EN 13863-4:2012

Incorporating amendments/corrigenda/National Annexes issued since publication:

The National Standards Authority of Ireland (NSAI) produces the following categories of formal documents:

I.S. xxx: Irish Standard – national specification based on the consensus of an expert panel and subject to public consultation.

S.R. xxx: Standard Recommendation - recommendation based on the consensus of an expert panel and subject to public consultation.

SWIFT xxx: A rapidly developed recommendatory document based on the consensus of the participants of an NSAI workshop.

This document replaces:
EN 13863-4:2004

<i>This document is based on:</i> EN 13863-4:2012 EN 13863-4:2004	<i>Published:</i> 1 May, 2012 3 November, 2004
---	--

This document was published under the authority of the NSAI and comes into effect on:
1 May, 2012

English Version

Concrete pavements - Part 4: Test methods for the determination of wear resistance of concrete pavements to studded tyres

Revêtements en béton - Partie 4: Méthodes d'essai pour la détermination de la résistance à l'usure par abrasion provoquée par les pneus à crampons des revêtements en béton

Fahrbahnbefestigungen aus Beton - Teil 4: Prüfverfahren zur Bestimmung des Widerstandes gegen Verschleiß durch Spikereifen von Fahrbahnbefestigungen aus Beton

This European Standard was approved by CEN on 9 March 2012.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

Foreword

This document (EN 13863-4:2012) has been prepared by Technical Committee CEN/TC 227 “Road materials”, the secretariat of which is held by DIN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by October 2012, and conflicting national standards shall be withdrawn at the latest by October 2012.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

This document supersedes EN 13863-4:2004.

In comparison with the previous version of the Standard published in 2004, the configuration of the test equipment is now more precisely described.

This European Standard is one of a series concerned with test methods for the functional requirements for concrete pavements:

- EN 13863-1, *Concrete pavements — Part 1: Test method for the determination of the thickness of a concrete pavement by survey method*;
- EN 13863-2, *Concrete pavements — Part 2: Test method for the determination of the bond between two layers*;
- EN 13863-3, *Concrete pavements — Part 3: Test methods for the determination of the thickness of a concrete pavement from cores*;
- EN 13863-4, *Concrete pavements — Part 4: Test methods for the determination of wear resistance of concrete pavements to studded tyres*.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.
